Foreign-Trade Zones Board

[Docket 40–95]

Foreign-Trade Zone 2, New Orleans, LA Proposed Foreign-Trade Subzone BP Exploration & Oil Inc. (Oil Refinery Complex) New Orleans, Louisiana, Area

An application has been submitted to the Foreign-Trade Zones Board (the

Board) by the Board of Commissioners of the Port of New Orleans, grantee of FTZ 2, requesting special-purpose subzone status for the oil refinery complex of BP Exploration & Oil Inc., located in Plaquemines Parish, Louisiana (New Orleans area). The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on August 3, 1995.

The refinery complex consists of 2 sites in Plaquemines Parish, Louisiana: *Site 1* (670 acres)—main refinery and petrochemical feedstock complex located on the Mississippi River at 15551 Highway 23, Belle Chasse, some 20 miles south of New Orleans; *Site 2* (409,000 barrel leased capacity)—tank farm (owned by Chevron), located on the Mississippi River at milemarker 25.7, Buras, some 30 miles southeast of the refinery.

The refinery (250,000 barrels per day; 370 employees) is used to produce fuels and petrochemical feedstocks. Fuels produced include gasoline, jet fuel, distillates, residual fuels, and naphthas. Petrochemicals include methane, ethane, propane, benzene, and xylene. Refinery by-products include petroleum coke and carbon black. Some 50 percent of the crude oil (90 percent of inputs), and some feedstocks and motor fuel blendstocks are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on certain petrochemical feedstocks and refinery by-products (duty-free). The duty on crude oil ranges from 5.25¢ to 10.5¢/barrel. The application indicates that the savings from zone procedures

would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is [60 days from date of publication]. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to [75 days from date of publication]).
